Languages: Java, Sql, JavaScript, HTML/CSS, Bootstrap, jQuery
Tools: VS Code, IntelliJ IDEA

PROJECTS

Speed Typer |

- * The Speed Typer is a dynamic typing test featuring a timer for each quote.
- * Users can improve their typing speed and accuracy while being timed on each quote retrieved from the Quotes API
- * This adds a and time bound element to the typing challenge
- * Technologies : HTML, CSS, JavaScript, Quotes API

Netflix Clone |

- * This Project mirrors the sleek design of Netflix while maintaining the functionality of a regular movie website.
- * It aims to demonstrate the fundamentals of the web while providing a functional and streaming website
- * Technologies : HTML, CSS, JavaScript, TMDB API

Weather - view |

- * A weather app made using the functionalities of the JSP Servlets and Weather API. Weather - view shows the information of any preferred location the user desires.
- * Technologies : HTML, CSS, Java, JSON, JSP Servlets, Weather API

EDUCATION

Lakshmi Narain College of Technology
B.Tech Information Technology

2020-Present
Current GPA: 8.33/10

Indore Public School
Class XII

2018-2020
GPA: 8.11/10

Little World School
Class X

2013-2018
GPA: 7.6/10

COURSEWORK

Courses: Object-Oriented Programming, Data Structures & Algorithms, DataBase Management System, Operation System, Computer Networks, Software Development

CERTIFICATIONS

IBM SkillsBuild Internship:

This internship is crucial for hands-on learning in Front End Development through IBM SkillsBuild, offered by Edunet Foundation and AICTE. It provides practical insights into emerging FED technologies, making it a valuable stepping stone for building skills and a successful tech career.

Infosys Springboard (DataBase and SQL):

The Infosys Springboard certificate is valuable as it provides essential training in databases and SQL. This certification equips candidates with crucial skills in managing databases and using SQL, enhancing their employability in the competitive IT Industry.

Digital Readiness Program (Java FullStack):

Completed Wipro's Talent Next Digital Readiness Program, a three-stage initiative covering Core Java, data structures, JDBC, SQL, and front-end technologies. Received certificates upon successful completion, validating skills in Java programming and web development. The program provided a strong foundation for comprehensive software development
